THANK YOU

Established in 1998, FEITIAN Technologies is a global leading provider of cyber security products and solutions with customers located in over 100 countries and regions.

A dedicated international team from 3 offices in Europe, North America and Asia allows us to serve our clients around the world.

The large number of R&D engineers who occupy more than half of FEITIAN's 1000+ employees, the continuous high investment in R&D, and the deep understanding of customers' needs over the past 20 years have enabled FEITIAN to continuously develop diversified and innovative products with international patent rights and certifications.

FEITIAN has highly specialized and automated production facilities, which gives us strong production capacity and high quality end products.

As a listed company, FEITIAN has always been committed to providing customers with reliable and cost-effective products.
